BIOGRAPHY

COLORWAVE is an Indie Pop Rock band influenced by groups like Paramore, Green Day and the Foo Fighters. In a heartbeat you will find yourself drawn into a rush of strong guitar riffs and pumping drums that will set the roof on fire.

After releasing their debut EP „Lighten the Shadows“ featuring the single “Colorblind” in 2015, COLORWAVE has recently released their succeeding record “Neon Veins“ on April 2nd 2016. The EP got great reviews and airplay on WDR2 and other stations. In April 2016 COLORWAVE toured the Netherlands and later that summer they played 18 Festivals in Germany and abroad (for example opener for the band „Birth of Joy“ and „UMSE“).

The band will release two singles/videos in Germany and the Netherlands in Spring 2017 and an EP later that year.

We are young. We are powerful. We are COLORWAVE.

“Yes! There are still some people making real music!”
